

Utsav Chatterjee

BTech AI & DS | Expected Graduation: 2027

8618403631 | utsavchatterjee741@gmail.com | LinkedIn: <https://www.linkedin.com/in/utsav-chatterjee741/> |

GitHub: <https://github.com/Drylegend> | Portfolio: <https://drylegend.github.io/portfolio/>

VISION

To build reliable, scalable data pipelines that help digital-first brands make faster, smarter decisions using data.

EDUCATION

BTech in Artificial Intelligence & Data Science REVA University | Bangalore | 2023 – Present (Expected 2027)

CGPA: 9.0 / 10 Relevant Coursework: Data Structures, Big Data Analytics, Cloud Computing, NLP, Deep Learning, AI/ML Foundations,

Diploma in Electrical Engineering South Calcutta Polytechnic | 2014 – 2017 GPA: 8.5 / 10 | Overall: 85% Higher

Secondary (Science) Panskura B.B. High School | 2014 Percentage: 60%

Secondary (10th) Panskura B.B. High School | 2012 Percentage: 85%

SKILLS

TECHNICAL SKILLS : Languages: Python, Java, SQL

Data Engineering & Pipelines: ETL Processes, Data Pipelines, Apache Spark, PySpark, Hadoop, Apache Kafka

Databases & Storage: MySQL, PostgreSQL, SQL (Relational DBs)

Cloud Platforms: Google Cloud Platform (GCP), BigQuery,

Data Analytics & Visualization: Pandas, NumPy, Power BI, Matplotlib, Spark SQL

AI & ML: Machine Learning, NLP, Predictive Analytics, Scikit-learn

Tools & Platforms: Git, GitHub Actions (CI/CD), Docker (Basics), FastAPI, Jupyter Notebook, VS Code

SOFT SKILLS: Problem-Solving, Critical Thinking, Collaboration, Communication, Project Management, Adaptability, Time Management

INTERNSHIP EXPERIENCE

Teaching Assistant Intern — RACE (REVA Academy for Corporate Excellence) | Bangalore | 2024 – Present

- Supported 100+ students in Python-based AI/ML lab sessions, focusing on data workflows and preprocessing
- Guided students in building ML models, debugging code, and applying best practices in hands-on projects

Production & Testing Coordinator — Centum Electronics Ltd | Bangalore | 2017 – 2022

- Reduced electronic testing time from 24hrs → 8hrs (66% improvement) through systematic workflow optimization
- Scaled production throughput from 300 → 2000 boards/month through process re-engineering

ACADEMIC PROJECTS

Global Temperature Analysis using Apache Spark

December 2025

- Built an end-to-end big data pipeline to ingest and process 160+ years of global temperature data using PySpark and Spark SQL
- Designed ETL transformations to clean, normalize and partition large-scale datasets for efficient distributed processing
- Optimized Spark transformations achieving 40% faster processing; performed trend detection, anomaly analysis and geospatial insights
- Visualized analytical findings using Power BI for actionable reporting

Tech: PySpark, Spark SQL, Hadoop, Python, Power BI

Automated Data Pipeline with CI/CD (MLOps)

December 2025

- Built a fully automated ETL pipeline ingesting live weather data from Open-Meteo API with zero manual intervention
- Designed data ingestion, cleaning and transformation workflows on structured datasets for downstream processing
- Automated weekly pipeline runs via GitHub Actions with version-controlled, reproducible and auditable execution
- Integrated automated model retraining on freshly ingested data ensuring predictions stay current

Tech: Python, GitHub Actions, CI/CD, Pandas, REST API, Open-Meteo API

CERTIFICATIONS

- Deep Learning — NPTEL (AICTE Approved) | 2025 | Score: 69/100
- IBM NLP Certificate — IBM - Cloud Computing Fundamentals
- IBM - Big Data Analytics — REVA University
- Data Structures & Algorithms (C) — REVA University
- SQL — BossCoders Academy

ACHIEVEMENTS

- Appreciation Award — Centum Electronics Ltd, for reducing testing time from 24hrs → 8hrs increasing throughput from 300 → 2000 units/month
- Represented in CodeSprint 3.0 Hackathon and Ideathon (Figma Design Track)
- Built 8+ AI/ML and Data Engineering projects involving ETL pipelines, Spark processing, MLOps automation, and cloud analytics.

EXTRACURRICULAR ACTIVITIES

- Teaching Assistant — REVA Academy for Corporate Excellence (RACE) | 2024 – Present

Languages: English (Fluent), Bengali (Native), Hindi (Conversational)

Interests: Data Engineering, Big Data Systems, MLOps, Open-Source Development
